Unit 3 - Accident Report

Compiled by; Rania A-G

What is the meaning of these words?

Accident

Injury / Injured

Incident

Affect / Affected

Cause

Immediate action taken

P.86

vw.danielsinsuranceinc.com/what-really-causes-accidents-in-the-workplace/

Look at the picture and **answer** the questions below.

- 1) Where do you think this is?

  Work / factory / site

- 2) What do you think happened?

  Slipped and fell /
  Was dizzy/tired and collapsed /
  Got hit by something

- 3) How do you think this happened?

  Water on the floor /
  Didn't eat or sleep well / overworked / no break
  Someone driving didn't see him, and hit him.

B | Listen to a conversation about an accident that happened in a shipping site.

As you listen write notes to complete the following table:

P.87

Name(s) of injured person	
Location	
Time of Accident	
Type of Injury	
Cause of Injury	
Details of how it happened	
Immediate action taken	

B | Listen to a conversation about an accident that happened in a shipping site.
As you listen write notes to complete the following table:

P.87

ANSWERS

Name(s) of injured person	Ahmed
Location	Shipping site
Time of Accident	12:30 PM
Type of Injury	Minor concussion; Cuts in the forehead Fractured ankle
Cause of Injury	Ahmed was hit by a stalker vehicle.
Details of how it happened	– Safety sensors of the stalker vehicle didn't work. – Sara was reversing while Ahmed was cleaning the floor. – Ahmed was accidently hit by the vehicle
Immediate action taken	– Sara called the nurse. - The nurse called the ambulance - He was given first aid before he was taken to the hospital.

C | The unexpected events that happen at workplaces are referred to as **accidents** or **incidents**.

Accidents are the unexpected events that lead to damage, harm or injury.

Incidents are described as unexpected events with no physical injury but may result in property damage.

The following table gives an example of each.
Study the examples and add two more.

Accident	Incident
- Fire - -	- Hacking - -

Fire

Hacking

C | The unexpected events that happen at workplaces are referred to as **accidents** or **incidents**.

The following table gives an example of each.
Study the examples and add two more.

Accident	Incident
-	-

Inhaling

Theft

Toxic Fume

C | The unexpected events that happen at workplaces are referred to as **accidents** or **incidents**.

P.87
ANSWERS

The following table gives an example of each.
Study the examples and add two more.

Accident	Incident
- Fire Collison - Falling object Electrocution - Slips/Falls Inhaling Toxic Fume	- Hacking - Theft - Cyber-bullying scam phishing

D | Read the following scenario and match the information on column 2 to the corresponding labels on Column 1. The first one has been done for you as an example.

P.88-89

Scenario: You are **Majid Sultan** working as the safety officer in a company.

An employee, Ahmed, had an accident in his office. You visited the spot and wrote an incident report.

Column 1	
Name(s) of injured person	**B**
Name of Witness	
Location	
Date, Time of Accident	
Cause of Injury	
Details of the accident	
Immediate action taken	
Name and Signature of Reporting Officer	

Column 2
(A) Fire
(B) Ahmed Nasser Al Busaidi
(C) He was **given first aid** at once. But the burns were **very serious,** so he was **rushed to the hospital**.
(D) Ahmed **was smoking and busy copying** the annual report from the office copier. He **accidentally left behind** his burning cigarette on the office table. **Suddenly**, the papers on the table **caught fire.** Before Ahmed could do something, the fire had **spread** everywhere. He tried to use the **fire extinguisher** but **could not operate** it. In the end, most of the office items, including the **copier,** were **destroyed** by fire. Ahmed **suffered from severe burns** on both his hands.
(E) 13 / 05 /2021. 11:30am
(F) 1. It is **recommended that** the company sets a system to ensure staff compliance with safety regulations. 2. The company **should** organize fire-safety drills for all the employees. 3. It **would also be extremely necessary for** the company to ensure using fireproof material in their offices.

(G) Majid Sultan
(H) Office

D | Read the following scenario and match the information on column 2 to the corresponding labels on Column 1. The first one has been done for you as an example.

Scenario: You are **Majid Sultan** working as the safety officer in a company.

An employee, Ahmed, had an accident in his office. You visited the spot and wrote an incident report.

P.88-89

Answers

Column 1	
Name(s) of injured person	B
Name of Witness	-
Location	H
Date, Time of Accident	E
Cause of Injury	A
Details of the accident	D
Immediate action taken	C
Name and Signature of Reporting Officer	G

Column 2
(A) Fire
(B) Ahmed Nasser Al Busaidi
(C) He was **given first aid** at once. But the burns were **very serious,** so he was **rushed to the hospital**.
(D) Ahmed **was smoking and busy copying** the annual report from the office copier. He **accidentally left behind** his burning cigarette on the office table. **Suddenly**, the papers on the table **caught fire.** Before Ahmed could do something, the fire had **spread** everywhere. He tried to use the **fire extinguisher** but **could not operate** it. In the end, most of the office items, including the **copier,** were **destroyed** by fire. Ahmed **suffered from severe burns** on both his hands.
(E) 13 / 05 /2021. 11:30am
(F) 1. It is **recommended that** the company sets a system to ensure staff compliance with safety regulations. 2. The company **should** organize fire-safety drills for all the employees. 3. It **would also be extremely necessary for** the company to ensure using fireproof material in their offices.

(G) Majid Sultan
(H) Office

D | Read the following scenario and match the information on column 2 to the corresponding labels on Column 1.

P.89

Answer the questions 1 to 5.

Questions:

1) How many parts does an accident report include?
2) What do you include when you describe what happened?
3) What is the part "immediate action" about?

4) The report includes three recommendations. One of these recommendations is of a general nature and two are specific. **General recommendations** are suggestions related to preventing incidents of the same nature while **specific recommendations** are about the incident itself. For example, in this scenario **recommendations related to any hazardous incidents in offices are general** but **fires in offices are specific**. **Study the recommendations and think of which one is general and which is specific. Explain your answer.**

Recommendation	General or Specific?
1. It is **recommended that** the company sets a system to ensure staff compliance with safety regulations.	
2. The company **should** organize fire-safety drills for all the employees.	
3. It **would also be extremely necessary for** the company to ensure using fireproof material in their offices.	

5) Write one more general recommendation and one more specific recommendation for this incident.

D | Read the following scenario and match the information on column 2 to the corresponding labels on Column 1.

P.89- Answers

Answer the questions 1 to 5.

Questions:

1) How many parts does an accident report include? **1) 8-10**
2) What do you include when you describe what happened?
   2) What was the person doing before the accident, the cause of the accident, losses or injuries?
3) What is the part "immediate action" about?
   3) What was done to help the injured person or steps followed to solve the problem
4) The report includes three recommendations. One of these recommendations is of a general nature and two are specific. **General recommendations** are suggestions related to preventing incidents of the same nature while **specific recommendations** are about the incident itself. For example, in this scenario recommendations related to any hazardous incidents in offices are general but fires in offices are specific. **Study the recommendations and think of which one is general and which is specific. Explain your answer.**

Recommendation	General or Specific?
1. It is **recommended that** the company sets a system to ensure staff compliance with safety regulations.	**1) General**
2. The company **should** organize fire-safety drills for all the employees.	**2) Specific**
3. It **would also be extremely necessary for** the company to ensure using fireproof material in their offices.	**3) Specific**

5) Specific: It would be good if the company can train few or all members on how to use a fire-extinguisher.

5) Write one more general recommendation and one more specific recommendation for this incident.

5) General: It is recommended that the company forbids smoking inside the offices.

2. The box below offers various common vocabulary that is useful for writing accident/incident reports. Study these vocabulary items and write them in the correct column.

P.90

Action Taken	Body Parts	Type of Injury

Give first aid concussion
take/rush to hospital
arm burns
head
hand
face
heat injury
cold Injury
finger
dislocation
sprain
eye
toe
hospitalized
knee
neck
lose consciousness
back
ankle
leg
chest
foot
Trip; fall
crash
cuts and bruises fracture

2. The box below offers various common vocabulary that is useful for writing accident/incident reports. Study these vocabulary items and write them in the correct column.

Action Taken	Body Parts	Type of Injury
Give first aid	head	arm burns
hospitalized	face	heat injury
take/rush to hospital	eye	cold Injury
	hand	dislocation
	finger	sprain
	neck	lose consciousness
	back	Trip; fall
	chest	crash
	knee toe leg	cuts and bruises fracture
	ankle foot	concussion

P.90 ANSWERS

3. Read the following phrases and write **UA = 'Unsafe Act'** or **UC = 'Unsafe Condition'** in the column UA / UC.

P.91

	UA		UC
Operating without authority		Defective tool or equipment	
Dangerous weather or environment		Breaking or damaging PP safety devices	
Improper lighting		Improper ventilation (dust, fumes, etc.)	
Failure to secure objects		Taking unsafe position or posture	
Dangerous storage or arrangement		Failure to warn others	
Unsafe design or construction		Poor warning system	
Slippery or other unsafe surface		Unsafe loading, mixing, carrying	
Failure to use personal protective devices		Operating or working at unsafe speed	

3. Read the following phrases and write **UA = 'Unsafe Act'** or **UC = 'Unsafe Condition'** in the column UA / UC.

P.91 - Answers

Operating without authority	UA	Defective tool or equipment	UC
Dangerous weather or environment	UC	Breaking or damaging PP safety devices	UA
Improper lighting	UC	Improper ventilation (dust, fumes, etc.)	UC
Failure to secure objects	UA	Taking unsafe position or posture	UA
Dangerous storage or arrangement	UA	Failure to warn others	UA
Unsafe design or construction	UA	Poor warning system	UC
Slippery or other unsafe surface	UC	Unsafe loading, mixing, carrying	UA
Failure to use personal protective devices	UA	Operating or working at unsafe speed	UA

F | Accident Report Practice You are the safety officer in a construction company.

P.92

One of your employees, David had an accident while fixing glass sheets in the new office room in the afternoon. You visited the site, talked to other staff and made the following notes:

Background details:

Construction site, an office room

- David Coleman
- 4.00 pm
- 19/5/2021

Activity:

- **Read this scenario on P.92**
- **You will receive an envelope with cards**
- **You will receive a Table like on P.93**
- **Match the cards to the correct category on the Table**

Injury: cuts and bruises on both hands and face

Details: fall on glass sheets /unconscious /not wear PPE/ old, torn gloves/ continuous work / glass sheets broken

Action Taken: First aid / hospital

Witness: Peter Moor

Complete the **Accident Report** Form and write details **(about 100 words)** using all the information from the notes. You should also give **at least 3 recommendations**.

Name(s) of injured person	
Name(s) of witness	
Location	
Date, Time of accident	
Type of ~~accident~~ injury	
Cause of accident	
Details of the accident	
Immediate action taken	
Recommendations	1. 2. 3.
Name and signature of reporting officer	

P.93 - ANS

Name(s) of injured person	David Coleman
Name(s) of witness	Peter Moor
Location	Construction site, new office room
Date, Time of accident	19/5/2021 at 4.00 pm
Type of ~~accident~~ injury	cuts and bruises on both hands and face
Cause of accident	Falling on glass sheets & continuous work
Details of the accident	fall on glass sheets /unconscious /not wear PPE/ old, torn gloves/ continuous work / glass sheets broken See next slide …
Immediate action taken	- David was given first aid. - David was taken to the hospital.
Recommendations	1. Staff are required to wear PPE gear at all times. 2. Provide staff with new gloves if ever they are torn. 3. Give a break to staff every 4 hours. 4. Reduce work shift hours, or swap employees.
Name and signature of reporting officer	Rania Abou-Gabal; RAG

fall on glass sheets /unconscious /not wear PPE/ old, torn gloves/ continuous work / glass sheets broken

P.93 - ANS

Details of the accident:

David had an accident while fixing the glass sheets in the new office room in the afternoon, on the construction site he was working at. David **fell on the glass sheets**, which resulted in him becoming **unconscious** since he hit his head on it. The **glass sheet broke** after he fell on it.

David was **not wearing personal protective equipment** (PPE). As well as, he was wearing **old and torn gloves**.

David was not paying attention due to long hours of work and **continuous work** without any breaks.

fall on glass sheets /unconscious /not wear PPE/ old, torn gloves/ continuous work / glass sheets broken

P.93 - ANS

Details of the accident:

Add cohesive devices

David had an accident while fixing the glass sheets in the new office room in the afternoon, on the construction site he was working at. Suddenly, David **fell on the glass sheets**, which resulted in him becoming **unconscious** since he hit his head on it. The **glass sheet broke** after he fell on it.
Unfortunately, David was **not wearing personal protective equipment** (PPE). As well as, he was wearing **old and torn gloves**. In addition, David was not paying attention due to long hours of work and **continuous work** without any breaks.

G | Accident Report Practice

You are the IT Technician for Cyber- security in a bank. You received complaints from two customers that their mobile-banking app has been hacked.

You investigated the incident, talked to them and made the following notes:

Background information:

- 25/6/2021
- Safa Ali & Salim Al Ahmdi
- Sunday, 12 pm

Details: clients receive phone calls, share credentials, personal bank account compromised, accounts not accessed, money transferred abroad

Action Taken:
accounts suspended,
Royal Oman Police contacted.

Complete the **Incident Report** Form and write details (about 100 words) using all the information from the notes. You should also give **at least 3 recommendations.**

Name(s) of affected person	
Date, Time of incident	
Type of incident	
Cause of incident	
Details of the incident	
Immediate action taken	
Recommendations	1. 2. 3.
Name and signature of reporting officer	

P.95 - ANS

Name(s) of affected person	Safa Ali & Salim Al Ahmdi
Date, Time of incident	Sunday, 25/6/2021 at 12 pm
Type of incident	Hacking mobile-banking app
Cause of incident	clients received scam phone calls & shared their personal info
Details of the incident	clients receive phone calls, share credentials, personal bank account compromised, accounts not accessed, money transferred abroad See next slide …
Immediate action taken	- Safa's & Salim's accounts were suspended. - The Royal Oman Police were contacted.
Recommendations	1. The bank **should** send warning and reminder emails to clients that the bank will never call and ask for personal details. 2. The bank **should** Send warnings through SMS messages. 3. It is recommended that the bank could set-up more security options such as tokens. 4. Advise clients if ever in doubt, hang up and call the bank directly.
Name and signature of reporting officer	Rania Abou-Gabal; RAG

clients receive phone calls, share credentials, personal bank account compromised, accounts not accessed, money transferred abroad

P.95 - ANS

Details of the incident:

Add cohesive devices

Safa Ali and Salim Al Ahmdi had issued complaints that their mobile-banking app has been hacked.

On Sunday, June 25th, 2021, Safa and Salim had received separate phone calls at different times of the day. **Unfortunately,** both Safa and Salim had shared their credentials with the scammers.

This resulted in their personal bank accounts being compromised.

Suddenly, Safa and Salim could not access their accounts anymore **because** the hackers changed their passwords.

In addition, the money that was in Safa's and Salim's accounts were transferred abroad. The money is believed to be transferred to India.

Sadly, there was no money left in both Safa's and Salim's accounts. The bank immediately suspended Safa's and Salim's account. **As well as,** the Royal Oman Police was contacted about this incident**, and** they are investigating it further.

Part A - Accident Report Extra Practice

Handout - Part A

PART A: Use the following data to complete the Accident Report.

You are a policeman at ROP in Rustaq. You have received a manifesto about a car accident on the Rustaq, Ibri road. You went directly to the site and talked to the witnesses who were there at that time and wrote the following notes.

https://www.ghp-news.com/4-common-injuries-causing-death-in-a-car-accident/

Persons injured: Sultan Al Alawi & Humaid Al Muqbali

Background details:

- 30/6/2023
- 4:00 pm
- Mountainous road between Rustaq and Ibri.

Injuries:

Sultan: serious cuts in his face/broken arm /dizziness.

Humaid: Broken leg/ bleeding/ possible concussion.

Details [write about 100 words]: heavy rains, unclear road/ used cell phone to call ambulance/ road humps/ casualty and emergency unit at Rustaq Hospital/ driver old man/driving wrong side of the road

Immediate action: Warm clothes/ first aid /called 9999/ hospital.

Witnesses: some villagers nearby the site.

Recommendations: (at least 3)

Part A ANS

Name(s) of injured person	Sultan Al Alawi & Humaid Al Muqbali
Name(s) of witness	some villagers nearby the site.
Location	Mountainous road between Rustaq and Ibri.
Date, Time of accident	30/6/2023 at 4:00 pm
Type of injury	Sultan: serious cuts in his face/broken arm /dizziness. Humaid: Broken leg/ bleeding/ possible concussion.
Cause of accident	Heavy rain and old driver driving on the wrong side of the road due to unclear road
Details of the accident	heavy rain, unclear road/ used cell phone to call ambulance/ road humps/ casualty and emergency unit at Rustaq Hospital/ driver old man/driving wrong side of the road See next slide …
Immediate action taken	Sultan & Humaid were provided with warm clothes to wear. First aid procedures were provided to them. The by-standers had already called 9999. Sultan and Humaid were then rushed to the hospital.
Recommendations	1. **It is recommended** that the ministry of transport should add more lights on the road. 2. It **would be also extremely necessary** to add traffic signs to make it clear that it is a two-way street and some road humps to slow drivers down. 3. **Drivers should reduce their speed** during bad weather such as heavy rain.
Name and signature of reporting officer	Rania Abou-Gabal; RAG
