Mock Exam

Question 1: Recommendation Report 20 Marks

Instructions: Read the scenario below and do the task.

You are Khalid Al-Qasmi, an employee in the Finance Department at UTAS in Muscat. The university needs 10 high-quality cameras with excellent performance, functionality and customization options. The budget is set at 4000 OMR. Your task is to advise Dr. Tamara Al-Falahi, Head of the Media Studies Department, on which digital cameras to buy.

Read the reviews of the **OptiShot Pro** and the **PixelMaster X200** to write a recommendation report to the Head of the Media Studies Department.

Complete the table that compares the two digital cameras and then write a recommendation report. Your report should be a minimum of 200 words and a maximum of 250 words.

OptiShot Pro Vs. PixelMaster X200	
OptiShot Pro	**PixelMaster X200**
Performance Create beautiful memories with the high-quality 24-megapixel sensor of the Optishot Pro. The camera has a battery life of 18 hours. With intuitive controls and innovative features, the OptiShot Pro empowers you to explore your photographic potential and express your unique vision. Not only that, you can take ten photos per second using this camera. The OptiShot is a market leader in terms of performance.	**Performance** A stand-out feature of the PixelMaster X200 camera is its ability to take thirty photos per second. Not many cameras can do that! Capture life's fleeting moments with stunning clarity thanks to its advanced 36-megapixel sensor. The X200 delivers exceptional results in all situations. You will not need to carry charging equipment with the camera because it has a battery life of 18 hours.
Features The OptiShot Pro has six creative filters that let you express your unique vision effortlessly. Although it does not have HD video recording, it will still bring your memories to life. The OptiShot Pro's 2.4-inch LCD screen provides a clear view of your compositions in any lighting condition. The camera's built-in Wi-Fi keeps you connected. Enjoy extended shooting sessions with the Pro's impressive battery life, ensuring you're always ready for the next perfect shot. Its user-friendly interface makes photography accessible to all.	**Features** The PixelMaster X200's 3-inch touchscreen offers effortless control. Capture life's precious moments in stunning detail with HD video recording capability. Share your masterpieces instantly with built-in Wi-Fi connectivity, keeping you connected to your audience. The X200 boasts a variety of 12 creative filters, perfect for enhancing your photography in any situation. With weather-sealed construction and compact design, this camera is the perfect travel companion to take on your next photographic journey. Wherever that is.
Customization With compatibility for 15 interchangeable lenses, you'll always have the right glass for the shot. The camera can shoot perfectly at night without the need for any extra equipment. The Pro's customizable quick menu puts your most-used functions at your fingertips. At the moment there is no bag available for the OptiShot Pro. But we are working on it. We hope to have one ready next year.	**Customization** You will receive a bag for your PixelMaster X200. At no extra cost! If you want to take photos at night this camera works superbly. The X200 supports a wide range of 12 interchangeable lenses. The intuitive menu system lets you personalize button functions for a seamless shooting experience. This camera adapts to you, not the other way around. Unleash your creativity and capture the world exactly as you see it.
The price of the OptiShot Pro is 410 OMR.	The price of the PixelMaster X200 is 385 OMR.
